

**PETALUMA CITY SCHOOLS
REMAINS PROACTIVE IN COMBATING
POTENTIAL STAPH INFECTION**

October 2007 Update

In an effort to be proactive towards combating the MRSA staph infection and for the general health of the staff and students through the winter season, the following items will be completed on a daily basis by the District's custodial staff.

- All drinking fountains will be thoroughly disinfected at least once daily.
- All classroom counters, sinks and bubblers will be thoroughly disinfected daily.
- All door knobs and surrounding areas will be thoroughly disinfected daily.
- All locker rooms and showers in the locker rooms will be sprayed with a disinfectant on a daily basis.
- All bathrooms will be cleaned and disinfected daily.
- Weight rooms and wrestling rooms will be disinfected twice daily.
