## Principal's Message

Penngrove School is one of seven elementary schools in the Petaluma City Elementary School District. It is the oldest, having been founded in 1926, and is located on a hill overlooking the rural community of Penngrove. Our current population is 390 students. Our staff includes 17 full- and part-time teachers, as well as 19 members of our support staff. Our school provides a comprehensive program for all students, which includes literature/language arts, math, science, social studies, physical education, music and art. We also provide additional services including speech and language, bilingual education, guidance, reading specialist services, and resource specialist services.

We are dedicated to recognizing the unique value of each child, providing learning in a safe, supportive environment, and promoting a partnership between home, school and community. We strive to create and maintain an atmosphere that fosters the intellectual, social and physical growth of each child. We expect consideration for others, compassion, empathy, responsibility, and self-discipline. We value a balanced program that emphasizes the mastery of academic skills while opening our students' minds to critical thought and creative ability. We encourage each child to develop to his or her fullest potential.

## Parental Involvement

Parents are an integral part of the Penngrove School program. We encourage them to assist in the classroom, attend field trips, and participate in Parent Teacher Association (PTA) and School Site Council (SSC) as well as our Bilingual Advisory and Gifted and Talented Education (GATE) advisory programs.

For more information on how to become involved, contact Kathleen Larsen, Principal, at (707) 778-4755.

## Professional Development

The primary areas for staff development are the development of Power Standards with a focus on science. Another major component of our staff development is the use of the Inquiry Process to analyze data for student academic success. There has also been a focus on literacy.

We have contracted with Springboard to provide coaches to guide administrators and staff through large and small group training. These are primarily offered during the school day providing release time for a team of teachers from each school. The District also provides an early release day every Wednesday for collaborative time among teachers in either department or interdisciplinary settings.

For the previous three school years, three days were dedicated to staff and professional development each year.

## Public Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (i.e., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available at a workstation, and the ability to print documents.

## Mission Statement

The Petaluma City Elementary and Joint Union High School Districts are committed to providing opportunities for all students to be challenged and motivated in school so that upon graduation, they will be successful in their future educational endeavors, careers, and community.

### Class Size

The bar graph displays the three-year data for average class size.

### Suspensions and Expulsions

This table shows the rate of suspensions and expulsions (the total number of incidents divided by the school's total enrollment) for the most recent three-year period.

Class Size Distribution – Number of Classrooms By Size									
Grade	06-07			07-08			08-09

### Enrollment and Demographics

The total enrollment at the school was 375 students for the 2008-09 school year.

## Textbooks and Instructional Materials

All students have current textbooks in good condition. All students have textbooks from the most recent State-adopted lists and every student has access to their own textbooks.

The adoption of textbooks and other supplemental instructional materials in Petaluma School Districts follows the State curriculum cycle established by the California Department of Education. Each year, a major subject matter discipline such as mathematics, language arts, or science is reviewed and updated. An instructional discipline rotates through this cycle every seven years. Teachers are involved in aspects of the adoption process. They identify materials to be piloted, pilot materials, evaluate the materials to ensure they are aligned to State standards, and make a recommendation to the Board of Trustees. Funding for the purchase of new textbooks is provided through State textbook funds. With no exceptions where class sets are maintained, all students have a copy of each adopted textbook. Technology is an integral feature of the instructional program.

Weekly music classes are provided for all students in grades 1-6 provided by music specialist teachers who access Standards-aligned materials; an art docent program is available for all classrooms.

### School Facilities

Penngrove was built in 1926. Penngrove offers a safe and secure campus where students, staff, and visitors are free from physical harm. The school provides up-to-date facilities and adequate space for students and staff. Penngrove School is comprised of a kindergarten area, library media center, large multipurpose room, and 16 classrooms. The school has a spacious playground with swings, slide, and a play structure as well as grassy fields for sports and games. We have a track that circles half of the grassy field. During the day and evening, two custodians ensure that classrooms, restrooms, and campus grounds are kept clean and safe. A scheduled maintenance program is administered by the Petaluma City School Districts to ensure that all classrooms and facilities are maintained to an adequate degree.

Penngrove's work environment for students and staff reflects the standards of both our school and our community. District personnel inspect our school regularly. In addition, necessary repairs and maintenance are continuously being done to ensure a safe facility. The local fire department also does annual inspections. As responsible members of the community, we take pride in our school environment by maintaining a clean and well-groomed campus.

Recently completed facility improvements include the installation of an outdoor track on our field. This was funded by a generous donation from one of our families.

*"Penngrove's work environment for students and staff reflects the standards of both our school and our community."*

## National Assessment of Educational Progress

The National Assessment of Educational Progress (NAEP) is a nationally representative assessment of what America's students know and can do in various subject areas. Assessments are conducted periodically in mathematics, reading, science, writing, the arts, civics, economics, geography, and U.S. history. Student scores for reading and mathematics are reported as performance levels (i.e., Basic, Proficient, and Advanced) and the participation of students with disabilities and English language learners is reported based on three levels (Identified, Excluded, and Assessed). Detailed information regarding the NAEP results for each grade level, performance level, and participation rate can be found on the NAEP Web page at <http://nces.ed.gov/nationsreportcard/>.

### NAEP Reading and Mathematics Results: Grades 4 and 8

This table displays the scale scores and achievement levels on the NAEP for reading (2007) and mathematics (2009) for grades four and eight.

## School Safety

The School Safety Plan includes a school crime assessment, information about child abuse reporting, disaster procedures, information about our schoolwide behavior program, procedures to notify teachers of dangerous pupils, sexual harassment policy, dress code, and information about supervision of students.

The School Safety Plan was most recently reviewed, updated, and discussed with school faculty in October of 2009.

**NAEP Testing Note:** Only a sample group of California's schools and districts participate in the NAEP testing cycle. Therefore, students in any particular school or district may not be included in these results. NAEP results reflect state level student performance and is not reflective of either the district or the individual school. Also, comparisons of student performance on the NAEP and student performance on the STAR Program assessments cannot be made because there are key differences between the two testing programs. For example, the two assessments test students in different grade levels and the tests are based on a different set of standards. For more information on the differences between the NAEP and STAR, please visit CDE's NAEP Web page at [www.cde.ca.gov/ta/tg/nr/](http://www.cde.ca.gov/ta/tg/nr/).

### STAR Results for All Students: Three-Year Comparison

The Standardized Testing and Reporting (STAR) results are reported as performance levels in order to compare student achievement to state standards. The five performance levels are: **Advanced** (*exceeds state standards*); **Proficient** (*meets state standards*); **Basic**; **Below Basic**; and **Far Below Basic**. Students scoring at the Proficient or Advanced level meet state standards in that content area. The tables below show the percentage of students that scored at Proficient or Advanced levels in English-language arts, mathematics, and science.

Percentage of Students Scoring At Proficient or Advanced Levels

	Penngrove ES			Petaluma City ESD			California		
	06-07	07-08	08-09	06-07	07-08	08-09	06-07	07-08	08-09
English-Language Arts	52%	49%	64%	50%	53%	61%	43%	46%	50%
Mathematics	61%	61%	58%	56%	56%	60%	40%	43%	46%
Science	58%	54%	76%	45%	59%	57%	38%	46%	50%

### Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key tests, including the California Standards Test (CST), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA). The CSTs are multiple choice tests in English-language arts, mathematics, science, and history-social science for varying grade levels. Some grade levels also participate in an essay writing test.

The CSTs are used to determine students' achievement of the California Academic Content Standards. These standards describe the knowledge and skills that students are expected to learn at each grade level and subject.

The CMA is a modified assessment for students with disabilities who have an individualized education program (IEP). It is designed to assess those students whose disabilities prevent them from achieving grade-level proficiency on an assessment of the content standards with or without accommodations.

The CAPA is an alternate assessment for students with significant cognitive disabilities who are unable to take the CST with accommodations or modifications or the CMA with accommodations.

For a complete report on all tests, participation, groups, and their scores by grade level, please visit <http://star.cde.ca.gov/>. To learn more about the STAR Program, please visit the guide at [www.cde.ca.gov/ta/tg/sr/documents/starpkt5intrpts.pdf](http://www.cde.ca.gov/ta/tg/sr/documents/starpkt5intrpts.pdf).

❖ Scores are not shown when the number of students tested is 10 or less, either because the number of students tested in this category is too small for statistical accuracy or to protect student privacy.

## Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. The API is a score on a scale of 200 to 1,000 that reflects a school's, district's or a student group's performance level, based on the results of statewide testing. An API score of 800 is set as the statewide target.

Each annual API reporting cycle includes a Base and a Growth API. The Base API starts the reporting cycle and is released approximately a year after testing (i.e., The 2008 Base is calculated from results of statewide testing in spring 2008 but is released in May 2009). The Growth API is released after the Base API but is calculated from test results from the following year (i.e., The Growth API is calculated from results of statewide testing in spring 2009 and released in August 2009). Therefore, for the 2008-09 API reporting cycle, the 2008 Base indicator and 2009 Growth indicator are used. To learn more about API, please visit the API information guide at [www.cde.ca.gov/ta/ac/ap/documents/infoguide08.pdf](http://www.cde.ca.gov/ta/ac/ap/documents/infoguide08.pdf) and the API overview guide at [www.cde.ca.gov/ta/ac/ay/documents/overview09.pdf](http://www.cde.ca.gov/ta/ac/ay/documents/overview09.pdf).

■ Data are reported only for numerically significant groups.

API Testing Note: Assessment data are reported only for numerically significant groups. To be considered 'numerically significant' for the API, the group must have either: (1) at least 50 students with valid test scores who make up at least 15% of the total valid scores, or (2) at least 100 students with valid test scores.

## Academic Performance Index Ranks

Schools are ranked in ten categories of equal size, called deciles, from 1 (lowest) to 10 (highest) based on their API Base reports. A school's "statewide rank" compares its API to the APIs of all other schools statewide of the same type (elementary, middle, or high school). A "similar schools rank" reflects how a school compares to 100 statistically matched similar schools. This table shows the school's three-year data for statewide API rank and similar schools API rank, for which information is available.

## Academic Performance Index Growth

This table displays, by student group, the actual API change in points added or lost for the past three years, and the 2009 API score.

### Adequate Yearly Progress

The No Child Left Behind (NCLB) Act requires that all schools and districts meet Adequate Yearly Progress (AYP) requirements. To meet these standards, California public schools and districts must meet or exceed criteria in four target areas:

1. Participation rate on statewide assessments in English-language arts and mathematics
2. Percentage of students scoring proficient on statewide assessments in English-language arts and mathematics
3. API scores
4. Graduation rate for high schools

The table displays whether or not the school and district made AYP overall and met each of the AYP criteria for 2008-09. For more information, please visit [www.cde.ca.gov/ta/ac/ay/](http://www.cde.ca.gov/ta/ac/ay/).

API	Yes		Yes	
Graduation Rate	✧		Yes	

✧ Not applicable. The graduation rate for AYP criteria applies to high schools.

### Federal Intervention Program

Schools and districts that receive Title I funding can enter Program Improvement (PI) if they fail to meet AYP over two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). With each additional year they don't meet AYP, they advance to the next level of intervention. This table displays the 2009-10 Program Improvement status for the school and district. For more information, please visit [www.cde.ca.gov/ta/ac/ay/](http://www.cde.ca.gov/ta/ac/ay/).

### California Physical Fitness Test

Each spring, all students in grades 5, 7, and 9 are required to participate in the California Physical Fitness Test (PFT). The State Board of Education designated the *Fitnessgram*® as the PFT for students in California public schools. The test measures six key fitness areas:

1. Aerobic Capacity
2. Body Composition
3. Flexibility
4. Abdominal Strength and Endurance
5. Upper Body Strength and Endurance
6. Trunk Extensor Strength and Flexibility

The primary goal of the *Fitnessgram*® is to assist students in establishing lifetime habits of regular physical activity. The table shows the percentage of students meeting the fitness standards for the most recent testing period. For more detailed information on the California PFT, visit [www.cde.ca.gov/ta/tg/pf/](http://www.cde.ca.gov/ta/tg/pf/).

### No Child Left Behind Compliant Teachers

NCLB requires that all teachers of core academic subject areas be "highly qualified." In general, for a teacher to be considered highly qualified, they must have a bachelor's degree, an appropriate California teaching credential, and have demonstrated competence for each core subject he or she teaches. The table displays data regarding NCLB compliant teachers from the 2008-09 school year. For more information on teacher qualifications related to NCLB, please visit [www.cde.ca.gov/nclb/sr/tq](http://www.cde.ca.gov/nclb/sr/tq).

### Types of Services Funded

These programs and services are provided at the school either through categorical funds or other sources that support and assist students:

- Gifted and Talented Education (GATE)
- English Learner support
- Immigrant student support
- School and Library Improvement Block Grant program funds
- Migrant Education support, for identified migrant students
- Identified students receive support through the resource specialist program, speech and language program, full inclusion program, or the bilingual assistant.

**SARC:** Data provided by the California Department of Education (CDE), school and the district office. For additional information on facts about California schools and districts, please visit DataQuest at <http://data1.cde.ca.gov/dataquest>. DataQuest is an online resource that provides reports for accountability, test data, enrollment, graduates, dropouts, course enrollments, staffing and data regarding English Learners.

All data accurate as of January 2010.
