Sonoma Mountain High School (SMHS) is a “magnet” school, offering an alternative program for students who would benefit from:

- Smaller school setting
- Close contact between students and staff
- More individualized instruction
- More flexibility in the daily schedule

Student Enrollment: 31

SMHS is designed as an alternative for high school students who have not been successful at the traditional high school, putting them at risk of dropping out.

Students are enrolled in Sonoma Mountain High School on a voluntary basis. Students who were disconnected from the traditional school, resulting in attendance issues or problems earning sufficient academic credit, might particularly benefit from the program because of the emphasis on daily attendance and the opportunity to complete additional work to make up lost credits.

Mission Statement

The Petaluma City Elementary and Joint Union High School Districts are committed to providing opportunities for all students to be challenged and motivated in school so that upon graduation, they will be successful in their future educational endeavors, careers, and community.

This executive summary of the School Accountability Report Card (SARC) is intended to provide parents and community members with a quick snapshot of school accountability. The data presented in this report are reported for the 2009-10 school year, except the School Finances and School Completion data that are reported for the 2008-09 school year. For additional information about this school, please review the entire SARC or contact the school or district office.

Opportunities for Parental Involvement

Contact

Rusty Sims
(707) 775-4738

We always need parents to help as drivers and chaperones for day outings and field trips. We can almost always use parents to serve on the School Site Council. We also welcome parents who might want to share their career path and occupational details with the students. Parents can help with our Outdoor Education program, including day hikes, overnight camping, and longer trips in the spring or fall. For more information on how to become involved, contact Rusty Sims, Principal, at (707) 778-4738.

Data and Access

Data Quest

DataQuest is an online data tool located on the CDE DataQuest web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (eg: Academic Performance Index [PI], Adequate Yearly Progress [AYP], test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (eg: the California State library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-serve basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

This table displays by subject area the average class size and the number of classrooms that fall into each size category (a range of total students per classroom).

School Climate

School Safety Plan 2009-10

Our School Safety Plan and our Emergency Plan are closely connected to the plans of Casa Grande High School (CGHS), on whose campus we reside. We coordinate activities, emergency preparedness drills, fire and safety drills, and more with CGHS. Each plan is reviewed annually and updated as needed and as required by law.

All of our various plans are part of the overall plan under which we operate, the Single Plan for Student Achievement (the "School Plan"), and are aligned with the District's Goals and Vision, the District Staff Development Plan, and the District Technology Plan.

The School Safety Plan was most recently reviewed, updated, and discussed with school faculty in September 2010.

Suspensions and Expulsions

| Rate | School | | | District | | |

| Expulsions | 3.1% | 0% | 7.25 % | 0.7 % | 0.8 % | not available |

This table displays the rate of suspensions and expulsions (the total number of incidents divided by the total enrollment) at the school and district levels for the most recent three-year period.

School Facilities

School Facility Conditions and Planned Improvements in 2010-11

The space is adequate for our needs and our instructional program, with two full classrooms, two restrooms, an office area with a separate principal's office, and a conference room. One of the classrooms is somewhat oversized, allowing space for student storage areas, eight networked computer stations, and a large screen television (connected to both cable and a computer). The other classroom has a full kitchen, skylights, and an open architecture suitable for group cooking experiences. In addition, we have access to some outside areas adjacent to the school, where we plan to create a flower and vegetable garden, an outside work area, and a native plant demonstration garden.

All areas of the physical plant are clean and in good condition. The District provides daily custodial services for both the bathrooms and the classrooms, and the District maintenance staff is quick to respond to any repair requests.

Students and staff alike have access to technology to enhance their learning experiences, and the building is open and available to students before school, at break and at lunch, and after school. Each morning, students are greeted when they arrive, and a conscious effort is made to make each student feel welcome, wanted, and valuable.

The physical plant supports and enhances our instructional efforts, is designed to promote a variety of student learning opportunities — both traditional and more specialized — and is both safe and attractive. We have worked closely with District Office staff, local landscape designers and builders, parents, community members, and students to create the external environment around the school to match the inside. We have created landscaping around the building, fenced off the "back yard" area as an outdoor learning area (and to provide some additional security), and regularly improve our native plant demonstration habitat. All the facilities were designed to be as low maintenance as possible.

| Without Full Credential | 0 | 0 | 0 | |
| Teaching Outside Subject Area of Competence | 0 | 0 | 0 | n/a |

This table displays the number of teachers assigned to the school with a full credential, without a full credential, and those teaching outside of their subject area of competence. Detailed information about teacher qualifications can be found at the CDE Web site at <http://dq.cde.ca.gov/dataquest/>.

| Teacher Mis-assignments and Vacant Teacher Positions | | | |

| Mis-assignments of Teachers of English Learners | 1 | 1 | 0 |
| Total Teacher Mis-assignments | 1 | 1 | 0 |
| Vacant Teacher Positions | 0 | 0 | 0 |

This table displays the number of teacher mis-assignments (teachers assigned without proper legal authorization) and the number of vacant teacher positions (not filled by a single designated teacher assigned to teach the entire course at the beginning of the school year or semester). Note: Total Teacher Mis-assignments includes the number of Mis-assignments of Teachers of English Learners.

| High-Poverty Schools in District | n/a | n/a |
| Low-Poverty Schools in District | 98 % | 2 % |

This table displays the percent of classes in core academic subjects taught by No Child Left Behind (NCLB) compliant and non-NCLB compliant teachers at the school, at all schools in the district, at high-poverty schools in the district, and at low-poverty schools in the district. More information on teacher qualifications required under NCLB can be found at the CDE Web site at <http://www.cde.ca.gov/nclb/sr/tq/>.

Support Staff

Academic Counselors and Other Support Staff 2009-10

| Title | FTE Assigned to School |

| Academic Counselor | .20 |
| Library Media Teacher (Librarian) | 0 |
| Library Media Services Staff (paraprofessional) | 0 |
| Psychologist | 0 |
| Social Worker | 0 |
| Nurse | 0 |
| Speech/Language/ Hearing Specialist | 0 |
| Resource Specialist (non-teaching) | .20 |
| Other | 0 |
| Average Number of Students per Academic Counselor | 32 |

This table displays, in units of full-time equivalents (FTE), the number of academic counselors and other support staff who are assigned to the school and the average number of students per academic counselor. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time.

Instructional Planning and Scheduling

Professional Development

A major component of our staff development is the use of the Inquiry Process to analyze data for student academic success. In addition we are focusing on formative assessment and the development of professional learning communities. The District also provides an early release day every Wednesday for collaborative time among teachers in either department or interdisciplinary settings.

Curriculum and Instructional Materials

Quality, Currency, and Availability of Textbooks and Instructional Materials

2010-11

| Core Curriculum Area | Quality, Currency, and Availability of Textbooks and Instructional Materials | Lack ** |

| Foreign Language | n/a | n/a |
| Health | n/a | n/a |

** Percent of Pupils Who Lack Their Own Assigned Textbooks and Instructional Materials

This table displays information about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school, and information about the school's use of any supplemental curriculum or non-adopted textbooks or instructional materials.

All students have current textbooks in good condition. In grades K-8, students have texts from the most recent State-adopted lists. In grades 9-12, students have Board-approved texts that support instruction based on California Content Standards. Every student has access to his or her own textbooks.

In grades K-8, District committees are responsible for recommending new textbooks for adoption once the State-approved list has been published. In grades 9-12, departments identify needs and recommend new titles for consideration as courses are developed and new frameworks are published.

Types of Services Funded -- Fiscal Year 2009-10

These programs and services are provided at the school either through categorical funds or other sources that support and assist students:

- Gifted and Talented Education (GATE)
- English Learner support
- Immigrant student support
- School and Library Improvement Block Grant program funds
- Migrant Education support, for identified migrant students
- Identified students receive support through the resource specialist program, speech and language program, full inclusion program, or the bilingual assistant

California Physical Fitness Test Results 2009-10 Percent of Students Meeting Fitness Standards

| 9 | Data not available | | |

The CA Fitness Test is administered to students in grades 5, 7, and 9 only. This table displays the percent of students meeting four, five, or six out of six standards for the most recent testing period. Detailed information about this test is at <http://www.cde.ca.gov/ta/tg/pf/> Scores are not shown when fewer than ten students were tested.

Student Performance

Standardized Testing and Reporting (STAR) Program

Details on STAR results, including results by grade and performance levels, including the percentage of students not tested, are available on the CDE web site <http://star.cde.ca.gov>. Program information on the STAR Program is available at <http://www.cde.ca.gov/ta/sr/documents/starpkt5intrpts.pdf>. SARC uses an average of selected test scores.

Accountability

Academic Performance Index

Academic Performance Index Ranks – Three-Year Comparison

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API is at <http://www.cde.ca.gov/ta/ac/ap/>.

| API Rank | 2007 | 2008 | 2009 |
|----------|------|------|------|
|----------|------|------|------|

This is either an LEA or an Alternative Schools Accountability Model (ASAM) school. Schools participating in the ASAM do not currently receive growth, target information, or statewide or similar schools rankings on this report in recognition of their markedly different educational missions and populations served. ASAM schools are covered under the Alternative Accountability system as required by Education Code Section 52052 and not the API accountability system. However, API information is needed to comply with the federal No Child Left Behind (NCLB) law. Growth, target and rank information are not applicable to LEAs

Adequate Yearly Progress

Adequate Yearly Progress Overall and by Criteria (2009-10 School Year)

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an indicator
- Graduation rate (for secondary schools only)

Detailed information on AYP is available at <http://www.cde.ca.gov/ta/ac/ay/>

| AYP Criteria | | School | District |
|--------------------|-------------|--------|----------|
| Overall | | No | No |
| Participation Rate | ELA | Yes | Yes |
| | Mathematics | Yes | Yes |
| Percent Proficient | ELA | Yes | No |
| | Mathematics | Yes | No |
| API | | No | Yes |
| Graduation Rate | | Yes | Yes |

Federal Intervention Program – 2010-11

Schools and districts receiving Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or Math) or the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at <http://www.cde.ca.gov/ta/ac/ay/>.

School Completion and Postsecondary Preparation

California High School Exit Examination (CAHSEE)

The California High School Exit Examination (CAHSEE) is primarily used as a graduation requirement. However, the grade ten results of this exam are also used to establish the percentages of students at three proficiency levels (below) in order to compute the Adequate Yearly Progress (AYP) designations as required by the federal NCLB Act of 2001. Detailed information about CASHEE can be found at <http://cahshee.cde.ca.gov/>.

Students in California public schools must pass both ELA and mathematics portions of the CAHSEE to receive a high school diploma. For students who began the 2008-09 school year in grade twelve, this table displays by student group, the percent who met all state and local graduation requirements for grade twelve completion.

Career Technical Education Programs (2009-10 School Year)

This section provides information about the Career Technical Education programs, and lists programs offered at the school.

Career Technical Education Participation (2009-10 School Year)

| Measure | Participation |
|--|---------------|
| Number of pupils participating in CTE | n/a |
| Percent of pupils completing a CTE program and earning a high school diploma | n/a |
| Percent of CTE courses sequenced or articulated between the school and institutions of postsecondary education | n/a |

The District Career Development and Pathways Committee oversees the CTE plan for high schools. Each high school has a counselor, administrator, career center specialist, and CTE teacher representatives. In addition, District entrepreneurs and the Director of Educational Services are members of the committee and representatives from our county Regional Occupational Program and Santa Rosa Junior College. Our Lead Community Entrepreneur is the primary representative.

Each comprehensive high school offers specific career programs and sequences. These programs are open to students from either high school. Career sector areas with course sequences are:

Admission Requirements for California's Public Universities

University of California

Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University level work. For general admissions requirements visit

<http://www.universityofcalifornia.edu/admissions/general.html>.

California State University

Admission requirements for the California State University (CSU) use three factors to determine eligibility: 1) specific high school courses; 2) grades in specific courses and test scores; and 3) graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses utilize local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For general admissions requirements, visit
